

father's love

SCHOOL

The message of, and experience in, the Father's love is central to our relationship with God. It is central to our relationships with others and has the power to unlock healing and restoration like the world has never seen. The message is simple, yet to walk in the day to day experience of the Father's unconditional love is something few people truly know.

Join us for an unforgettable, life changing week of teaching, ministry and impartation of the deepest love you'll ever experience. A place of safety and security that will transform your life and relationships.

From the welcome lunch, to the dynamic and inspired teaching, the small groups and individual ministry sessions, you will be uplifted, renewed and changed as you experience a new level of His love and acceptance.

can you let God love you? we all struggle with this. if we don't conquer it, we will never be able to experience His love to the fullest. open your eyes, your heart, and your relationship with your Father God to a whole new level.
